The doctor hunted nearly all night about the city, but was unable to locate the team. Early Monday morning he was called up by telephone and told that his horse was standing beside the road off Pleasant street. The doctor found that the blanket had been taken from the horse and folded up and placed in the sleigh, and from all appearances the horse had been driven away from where the doctor left it hitched. The halter could not be found. The horse was not injured in any way and did not appear to have been driven any great distance.

Regular meeting of Vinetta lodge, No. 10, K. of P., this evening at 7:30 o'clock. Work, rank of esquire.

The need of a heavy snowfall is evidenced all over the state. Brattleboro lumbermen find it difficult to do any work in the woods, the glare ice makes trips to the blacksmith shop necessary every day, and the distance is so great that little time is left to accomplish work. It is next to impossible to cut ice on the river and draw it away, on account of the icy condition of the river bank. In Woodstock, the roadbeds are wearing out and the Bridgewater stage and freighters have been on wheels for some time. The logging business is at a standstill and nothing more can be done in the woods until a foot or two of snow falls.

DEATH OF ELIZABETH A. KING.

For Ten Years Efficient Telephone Girl in Waterbury Office.

Waterbury, Jan. 31.—Elizabeth A. King, daughter of Mrs. Patrick King, who had been ill about a week with grippe, was taken Friday with an attack of pneumonia, from which she was unable to rally and died last night.

Miss King was born Feb. 7, 1882, and received her education in the public schools of this place, where she always lived. For the past ten years she had been employed in the telephone office, where she proved very efficient and much liked by all. Besides her mother, she is survived by three sisters, Mrs. T. H. O'Brien of Waterbury, Mrs. T. J. O'Brien of Northampton, Mass., and Mae of this place; and one brother, Frank King of Springfield, Mass.

The funeral will be held Thursday morning from St. Andrew's church, with interment in the Catholic cemetery at Duxbury Corner.

SUES TEAM DRIVER.

Automobilist Brings Unusual Action in Chittenden County Court.

Burlington, Jan. 31.—A rather unusual suit has been brought in county court, G. D. Jarvis suing Thomas Redmond, also of this city, for damages alleged to have been sustained by an automobile at the heels and wheels of a horse and carriage. Damages of \$300 are asked. It is set up that August 10, 1910, an automobile belonging to Mr. Jarvis was being driven in a careful manner along Shelburne road. The defendant, owing to his negligent manner of conducting his team, as it is alleged, ran into the automobile and seriously damaged it, so that it was out of commission for a month and repairs to the amount of \$100 were necessary. The machine is valued at \$1,000.

POLICEMAN DEMANDS PAY.

John Lavigne Has Claim, He Says, Against Burlington.

Burlington, Jan. 31.—It is understood that the case of John Lavigne, former police officer, who has a claim against the city for back pay, will be heard from again this week. Representative H. S. Peck, who represents Mr. Lavigne, has returned from Montpelier and intimated yesterday that Mr. Lavigne's claim would be filed against the city some time during the week. Mr. Lavigne claims that he was dropped from the police force without having proper charges preferred against him by Mayor Burke, and that he was therefore entitled to pay until action was taken by the police commissioners. Martin S. Vilas brought charges against Lavigne in order to clear up the tangle and the police commissioners submitted their report to the mayor, who returned it with a request for more definite information as to Lavigne's physical condition.

UNEQUALLY TAXED WEALTH.

How to Reach It Declared to Be the Phase of This Year's Messages.

Comparison of the messages of our state governors to their respective legislatures reveals the common questions with which the different commonwealths have to deal. Naturally also there is a marked variety in the local conditions of the different states. Among those legislatures which meet at the beginning of this year, the subject of taxation is generally the most prominent. Under this head not only are existing laws as a rule declared to be inadequately enforced, but new varieties of taxes are urged in numerous cases, of which income and inheritance taxes are the most general.

In his biennial message Governor H. S. Hadley of Missouri urges an inheritance tax law, with exemptions under \$10,000. The ground on which it is urged that of benefit as "a reasonable tax for receiving under the laws of this state the privilege that they enjoyed through the law of descent and distribution." Governor Kitchin of North Carolina makes no mention of the inheritance tax, but favors a federal income tax, justifying it on the grounds that, "without such law, the immensely wealthy individual pays no more tax on the things he consumes to the federal government than the citizen working for his daily wages." True, but not by any means the whole truth.

Governor Judson Harmon of Ohio demands the income tax amendment flatly, on the ground that "the levying of one would help secure the lowering of tariff taxes so greatly and generally desired, while the people will watch more closely what is done with their money when they know they are paying taxes, and how much." The two arguments mean that equality and directness are essential qualities in a sound tax system. A partial remedy for inequality in state taxes has been found in tax commissions, as illustrated by the experience of Delaware, Ohio and others. In some states commissions for corporate control have been also occupied with the equalizing of tax burdens, and with useful effect.

The most hopeful phase of the messages this year is that of favoring more direct methods in reaching the large mass of inadequately or unequally taxed wealth. Everywhere the call is for more revenue; nowhere does anyone insist on such retrenchment or reduction in public expenditures as to admit of reducing the amount of private wealth taken for public uses.—Wall Street Journal.

GOOD VALUES

It is not our policy to quote you the lowest possible price on Flour with out regard to quality.

It is our policy to make the lowest price possible on the highest grade of Flour. All of our Flour is bought by the car direct from the mills.

The housewife making a few loaves at a time does not notice that there are from 25 to 50 loaves per barrel difference between a low and high-grade of Flour.

All of our Flours are tested in our bakery and we know which will give the best results. We use several barrels per day and know that the higher grade Flour, at a higher price, is the best and most economical.
